In **Courses** you can explore the many internationally aligned curricula available within Mathletics. You can also create your own completely bespoke course for use in your classroom.

**View or Change Courses**

01. Select your class and group from the dropdown menus at the top of the screen. This will display the course currently assigned to those students.

02. To explore the activities outside of the core curriculum, simply click the **Something Easier/Harder** buttons.

03. Explore other available courses using the **View and Set Courses** panel. To assign to selected class, click **Set Course**.

**Control when your students can view individual topic areas using the SHOW/HIDE buttons on the left of the screen.**

**TEACHER GUIDES** are available for all activities, containing sample questions and teaching hints. Simply click on the links in the central panel.

**PREVIEW** any activity by right-clicking it in the central panel area. This will display the student view of the activity.
In **Courses** you can explore the many internationally aligned curricula available within Mathletics. You can also create your own completely bespoke course for use in your classroom.

### Create a Bespoke Course

1. **Using the Create and Edit Courses panel,** you can choose to create a new course from scratch, or use an existing course as a template and make your own changes.

2. **Select one or more year groups for which your course is intended and also give your course a name.** We recommend a descriptive name for easy filing. **NOTE:** Course names are not visible to students.

All custom courses created can be viewed and used by all teachers linked to the school’s Mathletics account. Great for collaboration and sharing content.

The Course Creator tool is perfect when the default national courses are not suited. For example an after-school club, advanced groups or support classes.
In **Courses** you can explore the many internationally aligned curricula available within Mathletics. You can also create your own completely bespoke course for use in your classroom.

### Create a Bespoke Course

03. Search for content to add to your course by **Activity Name, Topic**, or by **Outcome**. To preview any activity simply right-click it.

04. You can add in a new topic to the course or rename an existing one. To delete a topic, simply drag it to the bin.

05. Simply drag and drop your chosen activities into the central panel. You can also change the order of the activities in this way. To remove an activity, simply drag it into the bin. Once complete, click **Save Course** at the top of the screen.

Once you have completed and saved your new custom course, Mathletics will automatically add the related **Something Easier/ Harder** activities. If you wish, you can then edit these in the main **Courses** screen.

Custom courses are available for all teachers in the school to use and assign to their classes. They are stored in the main course lists, under the name of the school.
