

Mathletics – Minimum Requirements

Faster and Better

To ensure you are able to access and use Mathletics after the new platform upgrade, it is **essential** that you have upgraded your version of Adobe Flash Player on all devices at home and school to 10.3.x.x

You will also need to ensure you are able to access a new IP range, the details of which have been emailed to all in the Mathletics community. For further information or support, please do not hesitate to contact: techsupport@3plearning.co.uk

Minimum Requirements

- Windows XP Service Pack 3 or Mac OS 10.4 and above
- 512MB of RAM - Win XP
- 1GB of RAM - Win Vista/7
- Screen Resolution of 1024x768
- Internet Explorer 7 or Mozilla Firefox 3
- Adobe Flash Player 10.3.x.x - we recommend updating to the latest version available from <http://get.adobe.com/flashplayer/>.

Other Essential Settings:

- Pop-ups enabled
- Cookies enabled/set to accept
- JavaScript enabled
- Schools may need to "white-list" our IP/Domain on their Proxy/Content Filtering systems. Please contact techsupport@3plearning.com for more information

NOTE: Use of our Instant Workbooks with the optional GeoGebra components requires the latest JAVA installed on the computer.
