

World Maths Day Privacy Policy

World Maths Day (also referred to as World Math Day) is a website and event created and run by 3P Learning Pty Limited (3P Learning).

3P Learning and the World Maths Day team are committed to protecting the safety and security of our registered users (Registrants) and are sensitive to our Registrant's concerns about the safety of the personal information provided to us. We encourage all our users to read this Privacy Policy carefully in order to understand how any personal information collected by us is used.

General Communication Principle

The World Maths Day website does not provide students with any means to communicate directly with each other. There are no chat rooms connected with the learning resources. At all times, students are engaged in meaningful educative activity within a secure environment.

Public Display of Names

World Maths Day strives to be a highly engaging event for students. Given students have indicated their strong preference for their first name to be shown publicly, in recognition of their achievements, we allow this, but we do not allow full names (ie First Name and Surname) to be shown publicly.

What Personal Information Do We Collect

In order to register for World Maths Day, *teachers* need to provide us with their email address, and the names and ages of the students in their class or school (but not the email addresses of students).

For a *student* (or a *parent* or *guardian* on behalf of a student) to register individually for World Maths Day, the name and age of the student needs to be provided, and either the email address of the student or parent or guardian.

What We Will Do With Your Personal Information

The information collected from Registrants is used for the following purposes:

- To send a confirmation notice to the Registrant of the registration.

- Upon the Registrant's request, to reset a password for a lost or forgotten password.
- To respond to any questions, concerns or problems raised by the Registrant.
- To contact the Registrant about any problems with the Registrant's account or conduct on the World Maths Day website.
- To send out a World Maths Day newsletter about the event or upcoming events.*
- To publish the names of winners and high performers on The World Maths Day website or in the World Maths Day newsletter.*
- To send prizes or certificates for participation and performance in World Maths Day or associated events.

* World Maths Day is unique in a sense that there are numerous special events that keep the website constantly fresh, challenging, fun and interesting for our Registrants. We use the World Maths Day newsletter to notify our users of all the current events, changes, improvements, upgrades, new characters, and so on. In addition, we may notify our Registrants of new products and services that 3P Learning has designed and made available to the Registrants.

What we will *not* do with your personal information

3P Learning or the World Maths Day team will not sell or knowingly divulge your information to advertisers or any other third parties, unless: we are required to share your information with a third party in order to comply with law or to comply with a court order or subpoena; to enforce our website or event rules; or to protect the safety and security of our Registrants and our website.

Cookies

A cookie is a little piece of information handed to a web browser from a web server that contains information that can be retrieved from the server later. 3P Learning uses cookies only to the limited extent of recognising the Registrant and pairing that Registrant with the account (and account preferences) that the Registrant created.

Anonymous information

In addition to personal information, 3P Learning collects anonymous information about Registrants and the activities of Registrants on the World Maths Day website. Anonymous information is information that is not linked to the name of a user. This information is used to assist us in enhancing the learning resources and the information remains anonymous at all times.

How can parents access, change or delete personally identifiable information about their child?

Parents, guardians and teachers are welcome to contact us about any personally identifiable information about their child(ren) or students by emailing help@worldmathsday.com (or help@worldmathday.com).

Revision of Privacy Policy

3P Learning and the World Maths Day team reserve the right to change, modify, or revise this Privacy Policy in order to comply with any applicable laws or for any other reason at any time. Therefore our Registrants are required to check the Privacy Policy periodically to read about any changes, modifications, or revisions.
