Welcome to the Spellodrome community! The Teacher Console is designed to help you enhance your students' experience of Spellodrome and gather valuable insight into their progress. A host of valuable tools, reports and learning resources are available – allowing teachers to easily tailor Spellodrome to the varied needs of their classrooms, in turn leading to better differentiation, more focused learning and improved results.

The Teacher Console

The **Classes** tool allows teachers to easily manage the classes and groups of students they are responsible for, as well as move students between classes. It is also possible to split a class into up to 6 groups, each assigned their own word lists for even greater differentiation.

For a more detailed look at the **Classes** tool, see page 4 of this guide.

Word Lists are programs of work and the core of your students' journey through Spellodrome. Once created, a word list forms the basis of the content your students will encounter. A huge range of curriculum-aligned Word Lists are readily available within Spellodrome, or you can use the simple tools available to create your own.

For a more detailed look at the **Word Lists** tool, see page 5 of this guide.

Reports is the main dashboard for a host of automated student results data. From individual student summary reports (great for parent/teacher meetings) to weekly summaries of classroom performance, improvements and certificates, **Reports** is a one-stop-shop putting key data at your fingertips.

For a more detailed look at the **Reports** tool, see page 6 of this guide.

Spellodrome contains literally thousands of words, with more being added all the time. However, if you come across a specific word that is not available to include in your Word Lists, just ask! The **Request a Word** area allows you to submit a word to the Spellodrome team. We are adding words all the time, with the library growing and growing. You ask, we listen.

The **Assessments** tool is a great resource through which you can assign standard benchmarking tests to your students. Once students have completed the tests, Assessments will provide useful diagnostic and analytic information. Used at regular intervals, Assessments is a key resource for tracking student improvement.

For a more detailed look at the **Assessments** tool, see page 8 of this guide.

Welcome to the Spellodrome community! The Teacher Console is designed to help you enhance your students' experience of Spellodrome and gather valuable insight into their progress. A host of valuable tools, reports and learning resources are available – allowing teachers to easily tailor Spellodrome to the varied needs of their classrooms, in turn leading to better differentiation, more focused learning and improved results.

The Teacher Console

The library of Spellodrome **Workbooks** is a huge additional teaching and learning resource to the online curriculum area. Building to several thousand printable pages, each year/grade level has several workbooks available to download – individually targeted at a specific strand of spelling and literacy. Student and teacher workbooks are available.

For a more detailed look at the **Workbooks**, see page 7 of this guide.

For working directly with your class, the **Demonstrations** icon is very useful. One click will take you directly to the student interface – with the relevant content for your class – allowing you to see what the students see. This is particularly useful for whole-class demonstrations and interactive whiteboard use.

The **Writing Fun** section of Spellodrome is a fantastic extra bonus feature that is hugely popular with teachers. The tool has been designed to **assist students to write a wide variety of genres**. It features Text Organizers, for 14 text types, which explain the purpose, structure and language features. Also included are typical examples of student's writing at six different ability levels.

The **Action Bar** along the bottom of the screen contains useful links – for example to **print your students' awards**.

We are always releasing new and updated features for teachers. Be sure to follow the **3P Learning blog** for regular news.

Classes and Groups

In the **Classes** area you can move your students between classes, as well as divide your class into a number of **learning groups**, allowing you to assign different levels of work to specific groups of students.

Creating Groups in your Class

- 01 Select the class you wish to work with from the dropdown menu at the top of the screen.
- 02 Click the **New Group** tab, and give your new group a name and default course.
Note: this name is not visible to students.
- 03 You can now move students into this new group. Click **Move Students** and simply drag and drop from the main list of student names over to the newly created tab for the group.
- 04 Should you need to, you can **rename** or **delete** your group at any time using the button at the bottom of the screen.

Groups are fantastic for mixed ability classes, allowing individual learning pathways for specific students.

Students in groups remain in their original class for results purposes but will have access to the different word lists assigned to their group.

You can split a class into up to 6 groups, each with their own individual settings.

Word Lists

Word Lists are programs of work and form the core of your students' journey through Spellodrome. Once created, a word list powers the games, tests and activities your students will encounter. Choose a default list or build your own from the thousands of words available.

Creating Word Lists

- 01 Click **Create New Program** in the bottom-right panel and give your new word list a name and year/grade level.
- 02 You can now search for words to add to your list – either **By Topic** or **By Word**.
- 03 Use the search fields to locate the words you wish to add to your word lists.
- 04 Simply drag and drop your required words from right to left, into your list. You can drag single words or whole themes.
- 05 Remember to **SAVE** your lists.

Once created, custom word lists can be accessed and used by any other teacher linked to your school's Spellodrome account.

You can create up to 32 custom word lists. There is no limit on the number of words in each list.

Spellodrome contains thousands of words. If you cannot find one you need, why not suggest one via **REQUEST A WORD** in the Teacher Console?

Reports

Reports is the main dashboard for a host of automated student results data. From individual student summary reports (great for parent/teacher meetings) to weekly summaries of classroom performance, improvements and certificates.

View Reports

- 01 Select your class and group at the top of the screen. The screen will then display the results for those students. You can also select a date range.
- 02 To view results for an individual student, simply click their name.
- 03 Results cover a wide range of usage, highlighting **Correctly and Incorrectly spelt words** – as well as time online and participation levels (such as points and certificates earned).

RESULTS is a great way to track and monitor your students' progress – and to assign work or create ability groups accordingly.

You can **EXPORT** any of the results data you see by using the icon at the top of the screen.

Workbooks

The library of Mathletics **Workbooks** is a huge additional teaching and learning resource to the online curriculum area. Building to several thousand printable pages, each year/grade level has several workbooks available to download – individually targeted at a specific strand of spelling and literacy.

Using Workbooks

- 01 The Spellodrome printable series has been created as another way to provide the best resources and enhance your students' learning.
- 02 **Spelling Worksheets** - These are a series of spelling lists with related activities. Student worksheets are available alongside related materials for teachers – including placement tests, answers and assessment tasks.
- 03 **Instant Workbooks** - A range of spelling, grammar and punctuation workbooks with activities for students. Each workbook also has a corresponding teacher support book.

The many thousands of pages of worksheets are a fantastic additional resource to the online component of Spellodrome.

With matching pre-designed word lists in Spellodrome, it is easy to align the learning of the worksheets to your students' online activities.

Assessments

The **Assessments** tool can assign standard benchmarking tests to your students. Once students have completed the tests, Assessments provides powerful diagnostic and analytic data. Used at regular intervals, Assessments is a key resource for tracking student improvement.

Viewing & Setting Assessments

- 01 Select your required class at the top of the screen.
- 02 Use the dropdown menus in the blue panel to filter the assessments by country and age group.
- 03 Click the **Schedule Assessment** icon. An assessment can be set for students to complete at a date and time of your choosing – as well as the amount of time students will have to complete it.
- 04 Once students have completed an assessment, a **Results Available** alert will appear in the table. Click the **View Results** icon to explore the data.

You can choose to **preview** each Assessment, as well as any accompanying PDF resources.

Unlike the Spellodrome activities, Assessments are multiple-choice and all students receive the same set of questions.

Students can opt to leave an assessment at any time. Their time allowance to complete the test will be frozen until they return.

Assessments

The **Assessments** tool can assign standard benchmarking tests to your students. Once students have completed the tests, Assessments provides powerful diagnostic and analytic data. Used at regular intervals, Assessments is a key resource for tracking student improvement.

Viewing Class Results

- 01 Clicking the **View Results** icon in the main Assessment screen will present your students' results, as shown below.
- 02 If required, results can be exported to Excel for your own school records using the icon above the results table.
- 03 Click on any individual student's name to view a detailed breakdown of their answers. Clicking an individual question number will display more information.

The screenshot shows the 'Assessments' interface for 'Year 7' with 53 students. A 'Choose a Scheduled Challenge' dropdown is set to 'Tuesday, June 11, 2013'. Below the table are icons for printing and exporting to Excel.

Student Name	Correct Answers	Attempted Questions	Percent Correct
Mariam A	0	-	0%
Wilma A	0	-	0%
Kim A	0	-	0%
Adelle A	0	-	0%
Doreen A	0	-	0%

Jeff B	0	-	0%
Ivelisse B	0	-	0%
Vern C	0	-	0%
Tosha C	0	-	0%
Rhona C	0	-	0%

You can also choose to **print** the assessment for reference or for students to complete offline. Note – assessments must be completed online for diagnostic analysis to occur.

Assessments enables you to easily identify areas of difficulty and give your students effective feedback.
